1. Introduction & Objectives

1.1 About AIC

Agriculture Insurance Company of India Limited (AIC) has been formed under the aegis of the Government of India and promoted by 6 Public Sector Companies as a specialty Crop Insurance provider to the Indian farming community. AIC was incorporated on 20th December 2002 with an Authorized Share Capital of INR 15 billion and a Paid-up Capital of INR 2 billion. AIC commenced business operations from 1st April 2003, by taking over Crop Insurance operations from its major Promoter, General Insurance Corporation of India.

Currently, AIC covers 25 million farmers under its various crop insurance schemes, making it by far the largest Crop Insurance Company in the world. Of these, more than 86% belong to the small & marginal category. The major challenge was to reach the remotest farmer in the country and service him at an affordable cost. If every last-mile farmer is to be reached by AIC or vice-versa, the service loading on the premium ticket would become financially crippling to him.

Since AIC is engaged in the service of the farming community of the country, the overwhelming majority of whom are poor, AIC has modeled its resource pattern in accordance with those economic compulsions. Accordingly, to keep the management costs to the ground, AIC functions with only around 300 employees on the rolls but insures around 25 million farmers. AIC operates out of 18 Regional Offices only but deals with around 1,50,000 Bank Branches & Primary Agricultural Co-op. Societies at the grassroots level.
